Water Service Turn-On Policy

In an effort to limit City liability from water damages incurred due to open water lines or plumbing problems when water service is turned on, the City has implemented the following policy:

When a customer requests that their water service be turned on, the following conditions must be met before water service will be established.

1. The customer must be present at the property location at the time the water service is turned on, if the customer cannot be at the property location on the designated date and time of service connection, the customer assumes all responsibility for any damage, as set forth in the "Water Service Disclaimer". The customer must have access inside the facility to check for leaks and notify the operator that no plumbing problems exist.
2. If a City of Jacksonville's serviceman is required to be sent to the property because the City was not able to leave the water turned on due to running water on the customer's side of the meter, the account will be charged a \$25.00 trip fee each time the serviceman returns to the property.
3. I acknowledge that any water damage incurred due to open faucet, open valve or defective plumbing is my responsibility.
4. I also acknowledge that if the water is not able to be turned on by a Customer Service Representative because of an open faucet, open valve or defective plumbing, the customer is responsible to call the City of Jacksonville to activate the water

CITY OF JACKSONVILLE

Ambulance & EMS Subscription

(OPTIONAL)

INFORMATION

The Jacksonville Emergency Medical Services (EMS) Department charges the Jacksonville residents a basic fee of \$875.00 for ambulance transportation. In addition, a fee of \$15.00 per mile is charged from the incident location to the nearest medical facility that is able to care for the patient appropriately. An itemized breakdown of medical supplies is also incurred while under the care of the EMS personnel.

The City of Jacksonville offers an alternative program for those interested in managing their costs with more certainty.

City of Jacksonville citizens can subscribe to an Ambulance & EMS Subscription Program. For \$8.00 a month added to your city utility bill, subscribers are entitled to three (3) emergency transports per year without any out-of-pocket expenses. However, insurance companies will be billed.

This benefit is only available to residents of the City of Jacksonville. The resident may cancel this service in writing at any time. The City of Jacksonville EMS Department may terminate an existing membership for any reason by giving 30 days written notice to the subscriber.

If protocol recommends air transport, this subscription service **DOES NOT** apply to the services provided by air transport.

THIS SUBSCRIPTION SERVICE IS NOT AVAILABLE TO MEDICAID CLIENTS, APARTMENT BUILDINGS OR TENANTS WHO DO NOT RECEIVE A UTILITY BILL.

In the event emergency transport cannot be provided by Jacksonville EMS, the mutual aid plan will be activated. The emergency service providing the mutual aid will transport the patient and bill the patient. It is the responsibility of the patient to submit the bill to the Jacksonville EMS Department for payment processing.
